#### **Key Performance Measures**

The Chief Operating Decision Maker ("CODM") utilizes Adjusted EBITDA as our key performance measure.

Adjusted EBITDA provides the CODM with the information necessary to assess operational performance, as well as make resource and allocation decisions. Adjusted EBITDA is defined as net income (loss) attributable to shareholders from continuing operations, adjusted (a) to exclude the impact of provision for income taxes, equity-based compensation expense, acquisition and transaction expenses, losses on the modification or extinguishment of debt and capital lease obligations, changes in fair value of non-hedge derivative instruments, asset impairment charges, incentive allocations, depreciation and amortization expense, dividends on preferred shares, and interest expense, (b) to include the impact of our pro-rata share of Adjusted EBITDA from unconsolidated entities, and (c) to exclude the impact of equity in earnings (losses) of unconsolidated entities and the non-controlling share of Adjusted EBITDA.

The following table sets forth a reconciliation of net income (loss) attributable to shareholders to Adjusted EBITDA for the three and six months ended June 30, 2023 and 2022:
